How Iowa is tracking COVID-19 through case investigation and contact tracing

1. **Confirmed Case**
   - Isolate patient and provide care
   - Ask about contacts

2. **Contact**
   - Contact shows symptoms or tests positive
   - Confirmed case: isolate contact and provide care

3. **Contact**
   - Contact shows no symptoms
   - Quarantine from other people and animals
   - 14 days
   - Contact is released from quarantine and encouraged to follow public health guidance.
